

*U.S. Army Corps of Engineers, New Orleans District,
3rd Annual Partnering Conference*

2005 Conference Workshop Session I

“Cultivating Relationships Through Education, Collaboration, & Innovation”

Budgeting Workshop – Workshop Session I

Presenters: Marcia Demma & Edwin Dickson

This workshop will describe the civil works budgeting process and authorization process that the New Orleans District must adhere to. The session will begin with steps for problem identification and congressional study funding. The phases of the lifecycle of a project will show how the project progresses through study phases and project selection to plan design, construction, and finally, operation of a completed project. The annual timeline of project submission and approval will be presented, along with opportunities for partner participation along every step of the way.
